We ship out Truck Freight, UPS, and USPS daily. Next Day, Second Day, and Three Day Select, are available at an additional cost. Overseas and Canadian orders are shipped UPS and USPS. Shipping is charged according to weight & dimensions and can not be quoted until the package is ready to go. All Packages are insured **If a package is returned you are still responsible for shipping charges.**

TRUCK FREIGHT

We use several Trucking Companies depending on where you live. Our discounts have allowed affordable freight costs for those LARGE items too big for UPS. Truck shipments should be delivered to a place of business, or a truck freight terminal; however home delivery is available at additional cost. **DO NOT SIGN the Bill of Lading until you have inspected the package or packages for damage.** Once the Bill of Lading has been signed, it becomes a legal document stating that the shipment was received in good condition. **If the driver will not wait, sign as "UNINSPECTED" "DRIVER WILL NOT WAIT", your name, and have the driver initial.** Please call for a quote on the cost of shipping truck freight items. "Sheetmetal parts are susceptible to slight damage due to the nature of the product and the method of shipment. No credit will be issued for sheetmetal that has small pecks, dings, scratches or other minor flaws. Any body panel (either reproduction or factory original) requires minor body work when installed for a show quality finish.

ONCE RECEIVED**PLEASE CHECK YOUR ORDER .****Do not wait; open packages immediately.**

If parts are damaged, a claim must be filed ASAP. Call us immediately with the damage information. All Claims must be called in within 3 days. Keep all of the packing material and package or packages. Due to UPS procedures, if any item is damaged and reshipped to us, uninsured, UPS will be unable to process your claim, and we are unable to compensate you. We protect you by insuring all outgoing shipments.

"I can't find the small item" Look to see if they are taped onto larger items. This practice has saved some little items from being thrown away with packing. Also, when there are several small parts, they may have been put into a bag to keep them together, or put in with another part. Also, look on the invoice sometimes notes are found there. Still can't find it? Please call; we will help you.

630 RADIO

AM/FM - iPod - CD Controller - USB Flash Drive Player

The USA-630 is continuing to evolve in Custom Autosound's quest for the perfect classic car radio. This radio has large OEM style push-buttons that give a perfect look in a classic dash. Although it looks classic it has the latest modern features that

The USB input is still there on the back of the radio and allows you to plug in a USB flash drive for playback of MP3/WMA song files. The new alpha numeric display shows the song/artist/album titles during playback of flash drive (thumb drive), iPod files and RDS radio station information. As an option you can get Bluetooth music streaming from your Bluetooth capable phone or Bluetooth compatible player with the BLUKIT. The radio can even advance the songs on your phone buy using the track up button on the radio. It will also mute the music to take a hands free phone call through the radio. With 300 watts peak the radio should have all the power you may need, if you want more there are four pre-outs jacks on the back of the radio for optional amplifiers. The back of the radio also has auxiliary audio input for satellite radio or any portable player you may wish to use.

Sheetmetal parts are susceptible to slight damage due to the nature of the product and the method of shipment. No credit will be issued for sheetmetal that has small pecks, dings, scratches or other minor flaws. Any body panel (either reproduction or factory original) requires minor body work when installed for a show quality finish. The parts with EDP are protected from rust as long as the coating remains under the paint. Any questions or descriptions on any of our sheetmetal, please call. We will be glad to talk to you or your body shop, directly.
