INFORMATION All orders should include:

- ***Business/** Contact Name
- ***Billing** and Shipping address
- ***Year**, Model, and Make (HT/Conv./Sedan) of car, Information: Air, Engine, Transmission, Colors if needed.
- ***E-Mail** (optional) When your order is processed you will receive an invoice, with your tracking information.

BACK ORDERS

Occasionally, we or our suppliers will be out of stock on an item. We will Back Order this part for you, unless otherwise requested. You will be called when your back order arrives, We ask for your patience when this occurs.

SHIPPING OPTIONS

We ship out Truck Freight, UPS, and USPS daily. Next Day, Second Day, and Three Day Select, are available at an additional cost. Overseas and Canadian orders are shipped UPS, and USPS. All packages are sent by dimensional weight and can not be quoted until the package is ready to go.

All Packages are insured **If a package is returned you are still responsible for shipping charges.**

TRUCK FREIGHT

We use several Trucking Companies depending on where you live. Our discounts have allowed affordable freight costs for those LARGE items too big for UPS. Truck shipments should be delivered to a place of business, or a truck freight terminal; however home delivery is available at additional cost.

DO NOT SIGN the Bill of Lading until you have inspected the package or packages for damage. Once the Bill of Lading has been signed, it becomes a legal document stating that the shipment was received in good condition. If the driver will not wait, sign as "UNINSPECTED" "DRIVER WILL NOT WAIT", your name, and have the driver initial.
Please call for a quote on the cost of shipping truck freight items. "Sheetmetal parts are susceptible to slight damage due to the nature of the product and the method of shipment. No credit will be issued for sheetmetal that has small pecks, dings, scratches or other minor flaws. Any body panel (either reproduction or factory original) requires minor body work when installed for a show quality finish.

ONCE RECEIVED

PLEASE CHECK YOUR ORDER .

***Do not wait; open packages immediately.**

If parts are damaged, a claim must be filed ASAP. Call us immediately with the damage information. All Claims must be called in within 3 days. Keep all of the packing material and package or packages. Due to UPS procedures, if any item is damaged and reshipped to us, uninsured, UPS will be unable to process your claim, and we are unable to compensate you. We protect you by insuring all outgoing shipments.

*"I can't find the small item" Look to see if they are taped onto larger items. This practice has saved some little items from being thrown away with packing. Also, when there are several small parts, they may have been bagged together, or packed with another part. Also, look on the invoice for notes. Still can't find it? Please call; we will help you.

RETURN POLICY

Procedure:

1. Obtain a return authorization number:

- Call and speak to a representative at 724-265-2988. They will give you a return authorization number.
- Make a copy of your invoice. Write the authorization number on the invoice copy and on the outside of the box. Your return can not be processed without a phone number and a copy of your invoice.

11. Prepare parts for return:

- Parts must be in original package with Lutty's bar code.
- Parts must be in original and saleable condition.
- Place the copy of your invoice with the authorization number in the box.

111. Ship:

- If you ordered the wrong part, or decided you did not need a part, an exchange or a refund will be made for the part. Return shipping at your expense.
- Any return shipping to be refunded is determined by the individual situation, after the return.
- If you have no way of return shipping available to you we can send an "RA" tag at your expense.

1V. Time limits for returns:

- Returns after 30 days will have a restocking fee of 15%. **NO Exceptions.**
- NO returns or exchanges after 60 days. NO Exceptions.**
- SPECIAL ORDERS are NOT returnable.**

V. Parts that are received damaged

- If parts are visibly damaged, have the driver mark the delivery board "damaged".
- Check all parts for damage and keep all packing for carrier pick up.
- Call Lutty's 724-265-2988 with damage information within 3 business days.
- A claim will be processed and a replacement will be shipped ground UPS or FedEx at our expense.

VI. TRUCK FREIGHT

- Truck freight merchandise **MUST** be inspected **BEFORE** signing the freight bill. (This signature is a release that everything was received in good condition.) The driver will wait for you to inspect your parts. If the driver will not wait sign, "uninspected" and have the driver initial.
- Refuse damaged items with the freight bill signed "Damaged on arrival".
- Call Lutty's 724-265-2988 with damage information. Replacement parts will be shipped once we have the claim approval.

ALL PACKAGES ARE INSURED WITH THE CARRIER

If you request USPS, we can mail Priority and still insure your package; it does take an extremely long time to trace a lost package. We are unable to reship your merchandise until a claim can be filed. We recommend UPS or FedEx for safety and reliability.

SLIDEBARRADIO

AM/FM RDS - iPod doc/ CD Controller - USB Flash Drive Player With Hidden Digital Display

The Slidebar Radio is Custom Autosound's latest innovation in the quest for a perfect classic car radio. Just slide the 'slidebar' to the right and the analog AM radio display drops away to reveal a full featured digital display. With the large OEM style push-buttons you get a perfect look in a classic dash. Now a radio that not only looks right and sounds great in your classic vehicle, it gives you a direct connection to today's modern audio.

Although it looks classic it has the latest modern features that include an iPod doc. Navigation for the iPod includes artist/song/album/playlist all from the buttons on the radio. A great feature so you can keep the iPod hidden away in your glove box or console. The USB input is still there on the back of the radio and allows you to plug in a USB flash drive for playback of MP3/WMA song files. The alpha numeric LCD display shows the song/artist/album titles during playback of flash drive (thumb drive), iPod files and RDS radio station information. This LCD display has 7 user selectable color choices so you can match it to your other dash illumination. As an option you can get Bluetooth music streaming from your Bluetooth capable phone or Bluetooth compatible player with the BLUKIT. A2DP music streaming allows you to advance the songs on your phone by using the track up/down button on the radio. It will also mute the music to take a hands free phone call through the radio. With 300 watts peak the radio should have all the power you may need, if you want more there are four pre-outs jacks and a subwoofer out on the back of the radio for optional amplifiers. The back of the radio also has auxiliary audio input for satellite radio or any portable player you may wish to use. If CD's are your thing we have you covered as this radio will control an optional 6 disc changer USA-CD60 or our CD1 compact size CD/DVD mp3 compatible player.

The Slidebar Radio Features:

- AM-FM RDS tuner with 25 pre-sets (15-FM / 10AM)
- RDS tuner shows station / song / artist on LCD display
- 300 Watts Peak
- 7 LCD color choices (user selectable - white/red/blue/cyan/green/yellow/pink)
- LCD dimmer control
- Bluetooth Option Available (#Blukit)

- iPod doc and control (Control your iPod from the buttons on the radio)
- USB Port for Flash Drive MP3/WMA Playback
- Direct CD1 Control
- Alpha Numeric Display for MP3/WMA/ iPod files
- Electronic Tuning and Volume Control w/Last Volume Memory
- Bass / Mid / Treble Tone Control
- Loudness compensation
- DSP EQ
- Front Rear Fader
- Left Right Balance

230 RADIO

Do to the great success of our USA-630 radio we now bring you the USA-230. This new model radio has the same cosmetics as the USA-630 which has been a huge success. If you don't need USB/MP3 or CD changer control this is the model for you. An awesome looking radio a great price. Radio has no cassette but comes with auxiliary audio input. If you have a portable MP3 player or Satellite radio just plug it into the Aux input and listen to it through this radio.

This radio features:

- * AM-FM Stereo ? 200 Watts (4x50) ? Auxiliary Input (RCA Rear) RCA to 1/8" pin jack included ?
 - Digital Clock ? Electronic Tuner * 16 Pre-sets (4AM-12FM) ? 4 Channel RCA Pre-outs ? 4 way Fader ? Power Antenna Lead
- Custom Autosound 'kits' (modifies) each radio to fit specific vehicles so the radio fits your dash right out of the box.

630 RADIO

AM/FM - iPod - CD Controller - USB Flash Drive Player

The USA-630 is continuing to evolve in Custom Autosound's quest for the perfect classic car radio. This radio has large OEM style push-buttons that give a perfect look in a classic dash. Although it looks classic it has the latest modern features that include an iPod doc. Navigation for the iPod includes artist/song/album/playlist all from the buttons on the radio. A great feature so you can keep the iPod hidden away in your glove box or console. The USB input is still there on the back of the radio and allows you to plug in a USB flash drive for playback of MP3/WMA song files. The new alpha numeric display shows the song/artist/album titles during playback of flash drive (thumb drive), iPod files and RDS radio station information. As an option you can get Bluetooth music streaming from your Bluetooth capable phone or Bluetooth compatible player with the BLUKIT. The radio can even advance the songs on your phone by using the track up button on the radio. It will also mute the music to take a hands free phone call through the radio. With 300 watts peak the radio should have all the power you may need, if you want more there are four pre-outs jacks on the back of the radio for optional amplifiers. The back of the radio also

has auxiliary audio input for satellite radio or any portable player you may wish to use.

The USA-630 Features:

- AM-FM Stereo
- RDS tuner shows station / song / artist on LCD display
- 300 Watts Peak
- USB Port for Flash Drive MP3/WMA Playback
- iPod doc and control (Control your iPod from the buttons on the radio)
- Direct CD1 Control
- Negative LCD display (Black background with white letters / numbers)
- Alpha Numeric Display for MP3/WMA/ iPod files
- Electronic Tuning and Volume Control
- Loudness compensation
- Digital EQ
- 4 way Fader
- Left Right Balance
- Digital Clock
- 2 Channel RCA Auxiliary Input for Satellite etc. (cable included)
- 12 Pre-sets (12FM-4AM)
- 4 Channel RCA Pre-outs
- Separate Bass and Treble
- USA/Euro Tuner
- Power Antenna Lead

740 RADIO

With the same classic look and today's latest features. The USA-740 has a built-in Bluetooth (Microphone included), answer calls and get Bluetooth streaming music from your Bluetooth capable phone or other device. A solid 300 -watt peak power should be all the juice you need. yet the USA-730 has Hi 4 volt, 4-channel RCA.

Pre-out for additional amplifiers. The USB input allows you to plug in a USB flash drive for playback of song files. A front mini jack auxiliary audio input and a rear RCA auxiliary audio input provide versatility for options like satellite radio, iPod or any portable player. Match the dominant color of your instrument cluster with multiple LCD color choices with LCD dimmer control. The AM/FM PDS tuner shows station, song, and artist on the LCD display. The USA-740 also fully controls our optional 1-CD Player.

The USA-740 Features:

- * AM/FM RDS Tuner with 25 Pre-sets
- *LCD Dimmer Control
- *7 LCD Color Choices (Select- white, red, blue, cyan, green, yellow, pink)
- *RDS Tuber Show station/song/artist on LCD Display
- *300 Watts Peak 2 Ohm stable

SURE FIT COMPLETE KIT FEATURES:

* Fly by wire fully electronic servo motor controls with no cables or capillary tube to route.

* Infinite just right temperature air bleed-ing. * Infinite blower fan speed adjust-ment (3 speed 1957).

* High volumn dehumidifier defrost mode.

* Seperate high capacity aluminum plate & fin cooling coil.

* Copper/brass cuprobrazed parallel flow heater coil.

* Mounts behind the dash.

* Uses your factory system controls with our patented electronic cable converters.

* Flat steel firewall cover panel (stamped OEM style on 1957)

* Replacement molded glove box (reduced capacity)

Some installations may require additional engine pulleys not included with kits. You must provide pulleys, V-Belts, heater hose, and refrigerant.

Surefit recommends using their heavy duty fan blade and shroud

Surefit systems may interfere with some OEM radios or in-dash speakers.

If you are using a cross flow radiator a Vintage air condenser kit is available.

Trifive chevy surefit kits include tite-fit compressor hardlines. Lines are now rerouted through core support, and drier mounts behind.

These kits may be upgraded to include our polished titefit line kit and our popular polished proline compressor/alternator bracket.
